Air Conditioning & Heating

## TURN TO GOODMAN...

### FOR RELIABLE WARMTH AND MONEY-SAVING ENERGY EFFICIENCY.

As a homeowner, you try to find a balance between your family's comfort and your monthly energy costs. To meet those needs, we've developed the Goodman® 92.1% AFUE Energy-Efficient Multi-Speed Gas Furnace.

What should you expect from your Goodman 92.1% AFUE Energy-Efficient Multi-Speed Gas Furnace? How about superior performance, efficiency and affordability? That's just what you'll get with Goodman.

### YEAR-ROUND ENERGY EFFICIENCY

Energy efficiency is key to controlling the cost of heating your home. This furnace's 92.1% AFUE rating means 92.1 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of the gas burned contributes to your home's heating. The remaining 40 cents is lost energy – wasteful and expensive.

*Unmatched performance, efficiency and affordability. That's just what you'll get with Goodman.*

### QUIET OPERATION

Your Goodman GKS9 Furnace uses a multi-speed blower motor and sound-isolated blower assembly to reduce the noise levels common in other furnaces. Add an insulated, heavy-gauge steel cabinet, and the result is...extra-quiet comfort.

### RELIABILITY AND LONG LIFE

The heart of any furnace is the heat exchanger. Our patented, TuffTube™ aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to the highest industry standards. We guarantee their performance and

back them with some of the best warranties in the business.

For further safety and reliability, your furnace utilizes an energy-saving Hot Surface Ignition system, featuring a Norton Mini-Igniter and a patented Adaptive Learning Routine that helps insure safe start-ups and maximum igniter life. Additionally, the Goodman GKS9 Furnace is designed to minimize NOx emissions, contributing to better air quality inside and outside of your home.

## QUALITY MANUFACTURING BACKED BY WARRANTIES AND SERVICE

### INDUSTRY-LEADING WARRANTIES\*

We guarantee your Goodman GKS9 92.1% AFUE Energy-Efficient Multi-Speed Furnace with a **Lifetime Heat Exchanger Limited Warranty\*** to the original, registered homeowner and provide a **10-Year Limited Warranty on all functional parts**. For even greater protection and worry-free ownership, ask your Goodman dealer about **GoodCare®**, an affordable Extended Service Plan for your entire system.

### GUARANTEED QUALITY

From Goodman, you can depend on well-designed, top-quality, thoroughly tested products, backed by the best standard and extended warranties in the industry. Every single furnace and air conditioner is run-tested before shipment to help ensure a trouble-free installation and long product life.

*\* Online registration required within 60 days of installation. For complete details on Goodman warranties, visit [www.goodmanmfg.com](http://www.goodmanmfg.com).*

## GOODMAN: THE RECOGNIZED INDUSTRY LEADER

Every Goodman heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all Goodman products offer the legendary performance that has made the brand a recognized leader in the industry. This attention to quality has resulted in the Goodman family of companies becoming the second largest unit manufacturer of residential air conditioning and heating systems in North America.

The legacy began when Harold Goodman, a former air conditioning contractor, felt that he could build a better product. His goal was to manufacture air conditioning and heating equipment that performed more reliably, lasted longer than the competing products, eliminated time-consuming installation problems, and make air conditioning and heating products as affordable as possible.

Harold accomplished his goal and today the Goodman family of companies manufactures heating, air conditioning and ventilating equipment in modern facilities located across the United States.
