Air Conditioning & Heating

ENERGY EFFICIENCY IS KEY...

TO CONTROLLING THE COST AND COMFORT OF HEATING YOUR HOME.

The Goodman® GMH95 Gas Saver™ 95% AFUE Dual\$aver Gas Furnace is the answer to your family's heating needs. Goodman has always been a leader in providing high-quality heating products at a refreshingly comfortable price.

Now, with new Dual\$aver technology, the GMH95 Furnace will provide you with even-temperature warmth, improved air quality and quiet operation. Plus, the money you'll save on utility bills thanks to your furnace's high-efficiency performance will have you saying, "Thank goodness for Goodman."

FOR CONSISTENT HEATING COMFORT YOU CAN COUNT ON.

Unlike conventional, single-stage furnace technology, Goodman's Dual\$aver technology eliminates the temperature swings resulting from abrupt, high-stage stops-and-starts of the furnace by operating at a low heating stage the majority of the time. This enables your Goodman GMH95 furnace to gradually and pleasantly increase the

temperature of your home environment. And if low-stage heating doesn't warm your home to the desired temperature quickly enough, Dual\$aver shifts your furnace into high stage to ensure your comfort.

OTHER BENEFITS OF DUAL\$AVER TECHNOLOGY INCLUDE:

- Quiet furnace operation
- Virtual elimination of the stagnant pockets of air that can form when the furnace stops running
- Increased air filtration providing improved air quality

INDUSTRY-LEADING ENERGY EFFICIENCY

Your Goodman GMH95 95% AFUE Gas Furnace gets top ratings in energy efficiency, which is the key to controlling the cost of heating your home. This furnace's 95% AFUE rating means that 95 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of the gas burned contributes to your home's heating.

At 95% AFUE, your high-efficiency Goodman GMH95 Furnace meets the stringent requirements of the Environmental Protection Agency's Energy Star Program.

QUALITY MANUFACTURING BACKED BY WARRANTIES AND SERVICE

QUIET OPERATION

The components of your Goodman GMH95 Furnace have been specially selected to reduce the noise levels common in other furnaces.

Plus, we house these components in a fully insulated, heavy-gauge steel cabinet. The result? Extra-quiet comfort.

RELIABILITY AND LONG SYSTEM LIFE

The heart of any furnace is the heat exchanger. Our patented, TuffTube™ aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to the highest industry standards. We guarantee their performance and back it with a **Lifetime Heat Exchanger Limited Warranty** and a **10-Year Furnace Replacement Limited Warranty**.

For further safety and reliability, we also include our high-quality Silicon Nitride Igniter, the most durable igniter in the industry, powered by a patented Adaptive Learning Routine that helps ensure safe start-ups and maximum igniter life.

Additionally, the Goodman GMH95 Furnace is designed to minimize NOx emissions, contributing to better air quality inside and outside of your home.

For even greater protection and worry-free ownership, ask your dealer about **GoodCare®**, an affordable Extended Service Plan for your entire system.

INDUSTRY-LEADING WARRANTIES*

We guarantee your Goodman GMH95 95% AFUE Dual\$aver Multi-Speed Furnace with one of the best warranties in the industry. We cover its heat exchanger with a **Lifetime Limited Warranty*** to the original, registered homeowner and provide a **10-Year Limited Warranty on all remaining functional parts**. Even better, if the heat exchanger fails within the first 10 years of use by the original, registered homeowner, we'll provide a replacement furnace for free!

GUARANTEED QUALITY

From Goodman, you can depend on well-designed, top-quality, thoroughly tested products, backed by some of the best standard and extended warranties in the industry. Every single furnace and air conditioner is run-tested before shipment to help insure trouble-free installation and long product life.

** For complete details on Goodman warranties, visit www.goodmanmfg.com. Online registration required within 60 days of installation.*

- Two-Stage Gas Valve
- Powder-Paint Finish
- Corrosion-Resistant Vent Blower
- Insulated Cabinet
- Electronic Ignition Control w/Dual\$aver Technology
- Multi-Speed Blower

Goodman®

Thank goodness for Goodman™

GOODMAN: THE RECOGNIZED INDUSTRY LEADER

Every Goodman heating and air conditioning system is designed, engineered, and manufactured with pride. All employees follow strict, quality-driven processes to ensure that all Goodman products offer the legendary performance that has made the brand a recognized leader in the industry. This attention to quality has resulted in the Goodman family of companies becoming the second largest unit manufacturer of residential air conditioning and heating systems in North America.

The legacy began when Harold Goodman, a former air conditioning contractor, felt that he could build a better product. His goal was to manufacture air conditioning and heating equipment that performed more reliably, lasted longer than the competing products, eliminated time-consuming installation problems, and make air conditioning and heating products as affordable as possible.

Harold accomplished his goal and today the Goodman family of companies manufactures heating, air conditioning and ventilating equipment in modern facilities located across the United States.
